PASSAIC VALLEY REGIONAL BOARD ASKS RETRACTION — FOR WHAT?

On Wednesday, Feb. 17, 1960, on Page 30, in the Paterson Evening News, there appeared an article under the title reading: "Regional Board Demands Retraction From Paper"—It started:

"LITTLE FALLS — The Passaic Valley Regional High School Board of Education last night demanded a retraction from a West Paterson weekly newspaper for a comment made on the distribution of school insurance. Board Attorney Robert Moncrief, who was authorized to write to the paper, said the statement was libelous.

"You can't sue without demanding a retraction. That is the first step," he told the board.

The statement was part of an unsigned column about Little Falls activity and asked whether there was a conflict of interest or dual job-holding on the board.

Harold Poulson, the only insurance man on the board, announced he felt the comment referred to him."

We are not going to publish the entire article, but, continuing, this was the conclusion to the matter:

"Member Malcolm MacDonald pointed out that the statement was made in the form of a question, thus the writer might contend an answer rather than a retraction was necessary.

Moncrief replied that controversy might be what was desired by the writer, "to sell papers."

On Thursday, February 18, 1960, we received the following letter from Robert W. Moncrief, Counselor at Law, from 102 Main St., Little Falls, N.J.

Mr. Emilio Augusto,
Editor and Publisher,
Star Bulletin,
77-79 Mill Street,
Paterson, New Jersey.

Dear Sir:

This is to demand that you retract the libelous innuendo contained in your issue of February 11, 1960, to the effect that a member of the Board of Education of Passaic Valley Regional High School has an interest in insurance, the premium for which is paid by the Board and that you do so in as public a manner as that in which it was made.

Very truly yours,
Robert W. Moncrief
Attorney for the
Board of Education.

The following is what appeared in the Star Bulletin of Feb. 11, 1960, in the column captioned "Around the Town in Little Falls:"

Passaic Valley Region Board—also note: How about your board? How is your insurance being handled? Is it true that one of your members is in the insurance business and that his firm is among those favored? Dual capacity? ? — conflict of interest? ?

May we ask what is the "libelous innuendo" in the Star Bulletin?—We have asked a question and we still are awaiting an answer. — And, please note, Mr. Moncrief, we do not need to enter into any "controversy to sell our paper!"

Give us the answer to the question we have asked.

Board member Malcolm MacDonald wisely suggested to you and his colleagues on the Board that an answer was necessary. Why don't you do so?

DESMOND BEGINS 10th TERM AS HEAD OF SCHOOL BOARD

WEST PATERSON — Benjamin Desmond was reappointed chairman of the Board of Education at the board reorganization for his 10th consecutive term. John Ferrary, who has been vice-chairman of the board for more than five years, was renamed to that post. Both votes were unanimous.

In another move the board created the new post of secretary to the superintendent. Miss Nancy Muccio, of 11 Whippany Ave., was chosen over one other applicant to fill the new position and that of school clerk, at a combined salary of $3,600.

Mrs. Patricia Jasinski was granted a 15 month maternity leave from the school clerk post at the last meeting of the board. The clerk position pays $3,200 per year, Desmond said. There has been no decision yet on division of salaries between the two jobs. Desmond stated Miss Muccio was recommended for the post by Board Secretary John A. Hughes, who had interviewed tht applicants.

CHITTER CHATTER

Congratulations to the Queen of England on her giving birth to a new Prince of England! Also congratulations to all the other mothers all over the world who gave birth to their own little kings and queens but who do not get front page coverage. Their giving birth is just as important as the Queen's.

What ever happened to all those "sack" dresses?

Now the style for ladies shoes are very pointed. In a few weeks these styles will be obsolete, as a new style is coming out. More pointier? Not on your life! They will be square! Now all you girls who spent good money on those points can get ready to throw them out because in a short while you will be "out of style-" Boy, I pity the poor husbands who have to "shell out" every time a new style makes its debut! I wonder who creates these styles? The way the designers are reshaping the female figure, it won't be long before the men won't be able to recognize them anymore!

Congratulations to Tony Mannarino on his being elected President of the John Albanese Association! Tony is a good choice and very capable of doing a great job.

March 5, 1960, is Mrs. Jean Citro's 39th birthday. Congratulations! Jean is the wife of Dr. John Citro, the well-known personality of Jackson Ave., West Paterson.

The school marshalls are doing a great job! Many thanks to them in watching for the safety of our school children. Without them on the job, through all kinds of weather, we parents would have nothing but worry and anxiety until the children arrived home at the end of the school day. Again, many thanks!

George Washington chopped down the cherry tree and admitted the truth! I know why he did! For the same reason that I chopped down mine! Early in the spring the caterpillars come to life and make their home in the cherry trees. They eat everything green in sight and are a menace to the tree. I had to chop the tree down to prevent their spreading. That's why George Washington chopped his tree down! He was smart and did not lie about it! He also wanted to stop the caterpillar menace! That's the story, believe it or not!

So long. See you next week.

HYPNOSIS AND YOU

By DON DAVIES

President of the Nat'l Federation of Hypnotists

Question for this week:

I have tried everything to lose weight but nothing works. My doctor says there is nothing physically wrong with me. Can I lose weight through hypnosis?

Mrs. W. P.

Going on the assumption that there is nothing wrong physically, I would say that hypnosis can help.

Most people are overweight because they overeat but the question is, "Why do they overeat?" I have found in the many weight cases that I have worked with, overweight is not the basic problem. The basic problem is boredom, frustrations, anxieties. Your problem may be one or a combination of all three. One or all of these will cause tension and tension will manifest in a sympton. In your case overeating. Eating is a pleasant experience and this may offset some of your tension, but your tension is only relieved temporarily.

Most people that go on a diet become very nervous, irritable and they're just not fit to live with. With hypnosis you can be taught how to relax and to make relaxation a habit. This habit of relaxation will bring your tension level down. With your tension level down you will become more objective about yourself and your problems. Your problems will take on their proper prosepective and your tension will go down even further.

Suggestions will also be given for a balanced diet, proper amount of calorie and liquid intake and a desire to lose weight.

Remember, the condition you're in now did not happen overnight and hypnosis is not going to work a miracle and take that weight off overnight. Even with hypnosis it will take a little time, but it will be more pleasant and easier with hypnosis.

Losing weight with hypnosis should be done with the approval and supervision of your doctor.

TWO JAILED ON MV COMPLAINTS

WEST PATERSON — Two Pennsylvania men were sent to the Passaic County Jail last Thursday on motor vehicle charges when one of them drove a car over a small retaining wall at the home of George Pepe, of Lackawanna Ave.

Donald Fadden, 20, of 314 Excelcior St., West Pittston, Pa., was charged with careless driving and driving without a valid license. His friend, Donald George, 20, of 307 Damon St., West Pittston, Pa., was held on a charge of allowing an unlicensed driver to operate his car. Both men were sent to jail in lieu of $100 bail.

Fadden told police he misjudged the width of the road during a snowstorm when he attempted a turn on Lackawanna Ave. near Rt. 46. He had no driver's license with him. When police notified George, he produced Fadden's Pennsylvania license, but it had expired. Fadden had been discharged from the Army about 20 days ago, police stated. Both men were looking for jobs in this area and were staying in a Rt. 46 motel, according to police.

Sgt. Sam France and Patrolman George Furvacher investigated.

AROUND THE TOWN
IN LITTLE FALLS

Seen at the Annual Regular Republican Beefsteak Dinner on Saturday evening were literally hundreds of residents of Little Falls, each of whom seemed to be having an enjoyable evening. Among those noted were Harold Schumacher and Jack Fritts, both township committeemen, who at times have not always been on the same side as Dr. Stokes, the club's representative of the board. Township Committeeman Joseph Mayers, also a representative of the Club, was in attendance. Other officials from Little Falls in attendance were Tax Collector Phil Stainton; also his brother John who is County Road Supervisor; also Fire Chief Dransfield. From the County, Bob Wardle. From neighboring Clifton, Councilman Bill Brogan. From Passaic, Paul DeMuro, who will be a candidate for Congress from the 8th Congressional District. The presence of Harold Schumacher, long a foe of Mayor Stokes, proves that there is now a much needed semblance of harmony on the board, as was indicated in this column a few weeks ago.

Al Brunkhardt of Brunkhardts Corner Store entered his last week of business. When Al closes shop at the end of the month he plans to take a long vacation.

Traffic on Long Hill Road, always a problem, is at its worse in the early hours of the morning when the children are on their way to school. This past week cars were seen speeding down hill past the school at terrific rates of speed. Parents are concerned over traffic on Long Hill Road, and rightly so. The Township is readying an ordinance which will prohibit passing on Long Hill Road, but what is really needed, is a traffic officer to hand out a few tickets to the violators.

Joe Shovlovsky, of De Young's Diner, seen repairing and altering his place of business with the installation of wood paneling in and about the booths. Speaking of alterations, Stanton's Drug Store has done a remarkable job of creating an entirely new atmosphere. It is truly one of the best looking drug stores in the county.

Mike Donato heard denying rumors to the effect that he wants to run for Township Committeeman next election. A few weeks ago he was heard stating that he wanted to run, with Jack Fritts as his running mate. Change of mind? .

Father Jerome Gallagher, of Our Lady of Holy Angels, returns this week from a well earned vacation in Florida. Later this year Father Gallagher will celebrate his 25th anniversary in the priesthood.

The editorial on page one of this week's edition speaks for itself. A passage from Shakespeare is recalled "methinks . . . thou doth protest too much . . ."

Overheard from a township official this week "over 40 acres of choice land owned by the Passaic Valley Regional School Board. . . . ." Is all of this land being used to maximum advantage? Or, are plans being formulated for eventual use of all of this land? If not, can the SURPLUS land be disposed of and the proceeds thereof be used for operating expenses of the school, or towards the new addition, thereby saving the taxpayers some money.

Unless the Township Officials, and by officials is meant not only the Township Committee, but the Planning Board and Zoning Board as well, become realistic in their planning, the center of Little Falls is doomed. Witness the deterioration of Main Street. An amount in excess of $10,000 was paid to the Morrow Planning Associates for a Master Plan and for a Zoning Code. This money could well have been spent by the town fathers to stimulate business and industry which eventually helps to pay the cost of operating our town. Have the Taxpayers ever been told who the mastermind was behind the hiring of Morrow Planning Associates and who advocated the spending of more than ten thousand dollars? To date there have been a considerable number of amendments to the zoning code. One amendment is the cause of a law suit against the town. One law suit has already been settled out of court. The new zoning code has been the cause of undue hardship and confusion to many, many more. The code, which incidentally most town officials can't decipher, is a masterpiece of inequities.

The Industrial Commission should be on hand to help out the owner of the industrial building on Stevens Avenue when his case comes up before the local magistrate for violating the provisions of the zoning act. Here we have an industrial building, located on a railroad, not suitable for anything else but industrial or business uses, located adjacent to another industrial building, and the owner can't use it for a new business or industrial use, without first appearing before the Zoning Board of Adjustment to ask for a variance. It seems as though the former tenant of the building has moved out, and the new tenant is not engaged in the same or similar type of business, hence the town claims, the variance given for the former tenant does not cover the new tenant. Business is business, light industry is light industry, no matter what the product. Why make an owner appear before the Zoning Board every time the occupancy of the building change? This building was in town when the New Zoning Code was prepared. Why wasn't a provision made in the code for this building? The Industrial Commission and the Chamber of Commerce should both be heard on this matter.

William Hengeveld, of the police force, now a regular patrolman, having satisfactorily completed his period of probation. Congratulations. Almost nearing the end of his probationary period is Pat Hester. Both of these young men make fine additions to the force.

Township Committeeman Jacob DeYoung is reported to have sold his property adjacent to School No. 2 in Great Notch to Peter Pardine, local building contractor. It is learned that 13 homes are planned in this area. Mr. De Young is the committeeman that led the fight against the proposed fifty-dollar per lot subdivision fee as reported in last week's column.

It appears than an injustice was done to Contractor Zeek, the man awarded the contract for installing sewer lines in Great Notch and in front of the new Mooney Bros. Building. While the town has been demanding that Zeek start immediately, if not sooner, on the project, it has been learned that the reason he wouldn't start is that the necessary easements were not completely obtained by the town. Zeek was entirely within his right not to start until all easements had been obtained.

Good luck to Caroll Thayer and the Recreation Commission in trying to have a swimming pool constructed at the local recreation field. There are a lot of citizens backing this very worth-while project. Five years ago, certain township people ridiculed the Recreation Commission for even suggesting such a venture. Today the story is different. If you want to help this project, get in touch with the Recreation Commission. They will need all the help they can get.

WEST PATERSON — Mr. and Mrs. Slavatore Frasco, 5 Woodrow Ave., announced the engagement of their daughter, Judy, to August James Casapulla, son of Mr. and Mrs. James Casapulla, 85 Sherwood Ave., Totowa Borough, at a dinner and buffet supper.

PASSAIC COUNTY BOARD OF REALTORS MEETS IN LITTLE FALLS

(Continued from page 1)

stipulated by the New Jersey Real Estate Commission.

This is the first time in the history of the Board that a meeting has been held in Little Falls. This year's president, James E. Marston, of Little Falls, has inaugurated a new program of rotating meeting places throughout the county in order to give the public a better view of the professional real estate broker, and to give each of the Realtors a chance to see how his fellow Realtor operates in his community.

After a delightful luncheon, the following officials and civic leaders of Little Falls were presented to the Board. Mayor James E. Stokes, Committeeman Jacob De Young, Committeeman Harold Schumacher, Committeeman Joseph Mayers, Township Tax Collector and Treasurer Phillip Staintor, Magistrate William Hengeveld, Parking Authority Member and Passaic Valley Regional High School Attorney Robert Moncrief, Township Clerk Sue Stewart, Police Chief Barney Tissot, Fire Chief Vincent Dransfield, Parking Authority Chairman Wilbert Crane, who is also Vice President of the Chamber of Commerce, Freeholder Joseph Donato, who is a resident of Little Falls and former Postmaster and former school board member. Industrial Commission Chairman Richmond E. Holley, Industrial Commission Member Ted Requa, Superintendent of Schools Carroll Thayer, and Planning Board Chairman Ralph Rittacco.

The Township Officials and Civic Leaders were invited to attend the luncheon meeting in order to get acquainted with the Realtors and the ideas for which they stand. This phase of the meeting was conducted by the Civic Committee of which Gil Murphy, also of Little Falls, is Chairman.

One of the highlights of the meeting was the showing of an 11 minute film which was taken in Washington, D.C. a few weeks ago at the installation of the President of the National Association of Real Estate Boards. This film was of President Dwight Eisenhower addressing the association. The National Board was signally honored by the President of the United States, for during his seven years of office he has only ever addressed two professional or trade associations, the National Association of Real Estate Boards being one.

Each Realtor Member of the Passaic County Board is also a member of the New Jersey Association of Real Estate Boards.

Members of the Passaic County Board who have offices in Little Falls are: James E. Marston of the Marston Agency, William J. Cullen, of the Cullen Agency, and Gil Murphy, of Little Falls Agency, Inc. Another member, Fred Hunziker, of Third Avenue, has his office in Paterson.

I Heard Today Along Hollywood And Broadway

By Abbey King

Nationally Syndicated Column

OOH, I'm so mad at you, Marilyn Monroe, I could give you a good spanking for being such a naughty girl. What is this about you trying to break up a close friendship between Jack Lemmon and Tony Curtis, and is it true you threw a drink in Tony's face as he claims? Both boys say they'll never make another picture with you and what's more Studio Brass and others claim you are much too difficult to handle. Now behave yourself, please.

Gentlemen of the Jury, what is your verdict? Warner Bros. are willing to give "Kookie" Byrnes a seven year contract at $750 per week with a $250 weekly raise each succeeding year, plus 50% profit of his personal appearances. "Kookie" says fine but he wants the above mentioned benefits to apply to his existing contract which has only 4½ years to go.

After a five year layoff, Laraine Day will be a murderess in "The Third Voice."

Go ahead if you want to believe it. Some Colleges claim that Barbers operating in the swankier sections are taking a political study course enabling them to better converse with their vict—oops, pardon me, I mean customers.

I can hardly wait for the "Oscar" Telecast. One reason is that Bob Hope is master of ceremonies and the reason is to see Gina Lolopolooza.

Rocky Graziano and Jake La Motta are a pair of stevedores in "Murder Inc."

I could think of a better way to spend money. You'll see what I mean if you view "Reach for Tomorrow" and pay particular attention to the beatnick scene. One of the costliest yet by Columbia Pictures.
